Saran Chuephoodee (Dream)

Senior Software Tester / System Analyst

Bangkok, Thailand | Sep 1994 | 093-2094456 | Kerlzero@gmail.com

🚀 SUMMARY OF QUALIFICATIONS

Software Quality Assurance and System Analyst with 8 years of experience in backend, integration, and enterprise system testing across Telecom, Insurance, and E-Commerce domains. Strong expertise in API validation, business flow analysis, and end-to-end data verification. Experienced in collaborating with developers and stakeholders to perform root cause analysis and ensure high-quality system delivery across SIT, UAT, and production releases. Currently enhancing test automation skills using Playwright.

🎯CORE SKILLS

- Backend & API Testing (RESTful APIs, Third-party Integration, Batch Jobs)
- Requirement & Business Flow Analysis
- Test Case Design & Test Strategy
- Defect Root Cause Analysis & Quality Improvement
- System Integration & Data Flow Validation
- Cross-functional Collaboration (Dev, BA, QA, Operations)

🛠️TECHNICAL SKILLS

System Analysis: Requirement Analysis, Business Flow Analysis, Gap & Impact Analysis, Use Case Definition

Backend & Integration: RESTful APIs, Third-Party Integration, Data Flow & Business Logic Validation, Batch/Scheduled Jobs

Testing & QA: Test Case Design, Functional & Integration Testing, UAT, Regression Testing, Defect Root Cause Analysis

Web & Mobile Testing: Web Application Testing (Cross-browser & Responsive Testing), Mobile Web Testing (iOS/Android) , UI/UX and Functional Validation on Web Interfaces , End-to-End User Flow Testing

Database & Data: SQL, PL/SQL, PostgreSQL, Data Validation, Log Analysis

Tools: Postman, SoapUI, JIRA, Confluence, pgAdmin, PL/SQL Developer, Power Automate

Domains: Telecom (AIS), Insurance, E-Commerce (Web E-Catalog)

Automation (Learning): Playwright (Basic)

🎓EDUCATION

BACHELOR OF ENGINEERING IN SOFTWARE ENGINEERING

University of Phayao (2013 – 2016)

🏆 CERTIFICATES

IT PASSPORT EXAMINATION (LEVEL : IP)

ITPE - NSTDA ACADEMY

APPLICATION DEVELOPMENT FUNDAMETALS

Microsoft Technology Associate (MTA)

💼 WORK EXPERIENCE

SENIOR SOFTWARE QUALITY ASSURANCE (CONTRACT)

ACCORD INNOVATIONS CO., LTD. | Sep 2025 – Dec 2025

Responsibities

- Performed end-to-end testing for an e-commerce web platform, validating system functionality across frontend and backend components
- Analyzed requirements from the Tech Lead and designed detailed test cases covering business logic and user interface behavior
- Identified requirement conflicts and coordinated with System Analysts and stakeholders to clarify workflows and documentation
- Executed functional, integration, and UI testing while reporting defects through structured bug tracking processes
- Communicated directly with Product Owners when requirement inconsistencies affected business decisions

---

SENIOR SOFTWARE TESTER (PERMANENT)

MISUMI (THAILAND) CO., LTD. | Mar 2023 – Jul 2025

Responsibities

- Led testing activities for an e-commerce platform including web and mobile applications (iOS and Android)
- Conducted frontend testing alongside API behavior validation to ensure consistency between UI and backend services
- Performed mobile testing using Android APK builds and iOS TestFlight releases across physical devices
- Investigated application logs through Android Studio and Xcode to analyze API responses and integration behavior
- Planned testing cycles, distributed tasks across vendors and junior testers, and collaborated with developers on complex test scenarios
- Utilized Power Automate to manage and track test case workflows for large-scale releases and short-term projects

---

SYSTEM ANALYST (CONTRACT) / SENIOR SYSTEM ANALYST (PERMANENT)

EPIC CONSULTING CO., LTD. / MIMO TECH COMPANY LIMITED | Jun 2021 – Nov 2022

Projects : AIS FBB-Fibre Workflow & Web Register Platform

Responsibities

- Analyzed business requirements, system workflows, and technical specifications to support telecom onboarding and service subscription platforms
- Prepared functional specifications and system documentation for developers and QA teams
- Designed and validated workflows supporting customer onboarding, document verification, order creation, and installation scheduling
- Coordinated system enhancements and feature implementations while ensuring compatibility with existing business processes
- Led initiatives to expand service channels, including Pocket WiFi subscriptions and integrated payment methods such as QR code and credit card transactions
- Supported database logic validation and business rule implementation across Oracle and PostgreSQL environments
- Participated in system migration from on-premise infrastructure to cloud platforms, validating converted database logic and ensuring business logic consistency
- Coordinated with developers, testers, and third-party vendors to align system integrations and project deliverables
- Provided production support and troubleshooting for system issues across each release cycle

---

SOFTWARE TESTER (CONTRACT)

APAR TECHNOLOGIES (THAILAND) LTD. | Sep 2018 – Mar 2021

Projects : Bangkoklife (BLA) Insurance & AIS Web Register Platform

Responsibities

- Performed backend data validation using SQL queries
- Executed functional, integration, and regression testing
- Designed test cases, test steps, and test scenarios
- Executed regression Test cases in Dev , SIT and UAT environment, logged defects till closure during testing.

ASSOCIATE SOFTWARE TEST ENGINEERING (PERMANENT)

AWARE TECHNOLOGY SOLUTIONS. | Aug 2017 – Sep 2018

Projects : AIS SFF & CSP

Responsibities

- Executed SQL queries to test back end data validation of database tables based on business requirement.
- Documented the test results with test status and defect information.
- Develop/Design Test Case, Test Step, Test Scenarios.
